SRMS

Storage Recovery Migration Services

SRMS ORS
NIST · DEPARTMENT OF DEFENSE · ADISA PRODUCT CLAIMS TEST

Scalable 96 Bay all-in-1 Hard Drive Repair & Erasure Solution

Key Features

FULLLY AUTOMATIC
Embedded with SRMS proprietary software. No HASP or hardware dongles required to license

HOT SWAP READY
Increase your repair and erasure throughput

SIMPLE TO USE
Easy to set-up and little training required to operate

S.M.A.R.T. CHECK
Diagnose drive S.M.A.R.T and R/W status to gauge device health information

CENTRALIZED REPORTING
Repair / Erasure process is centralized real-time monitored and each erasure generates a tamper-proof digital certificate

Why SRMS ORS?

☑ Supports 2.5 / 3.5 inch HDDs or SSDs with SATA / SAS interface

☑ Scalable data sanitization and hard drive repair appliance in the market

☑ Compliant with the most stringent regulatory standards: NIST, DoD, or IEEE

☑ SRMS erasure algorithm has achieved ADISA Product Claims Test certification

☑ Ideal for ITADs and companies processing large volume of loose drives

About
Our Company

SRMS is a leading data care corporation focusing on providing cutting-edge and future-ready solutions that stand unrivalled in their capabilities. Our commitment is firmly rooted in delivering innovative solutions and unparalleled supports to meet and exceed our customers' expectations.
