

SRMS TMS

NIST

12 Bay all-in-1 Hard Drive Repair & Erasure Solution

Key Features

FULLY AUTOMATIC

Embedded with SRMS proprietary software. No HASP or hardware dongles required to license.

HOT SWAP READY

Increase your repair and erasure throughput

SIMPLE TO USE

Easy to set-up and little training required to operate.

S.M.A.R.T. CHECK

Diagnose drive S.M.A.R.T and R/W status to gauge device health information

CENTRALIZED REPORTING

Repair / Erasure process is centralized real-time monitored and each erasure generates a tamper-proof digital certificate.

Why SRMS TMS?

Supports 2.5 / 3.5 inch HDDs or SSDs with SATA / SAS interface

Compliant with the most stringent regulatory standards: NIST or DoD

SRMS erasure algorithm has achieved ADISA Product Claims Test certification.

Ideal for ITADs and companies processing convenient volume of loose drives

About Our Company

SRMS is a leading data care corporation focusing on providing cutting-edge and future-ready solutions that stand unrivalled in their capabilities. Our commitment is firmly rooted in delivering innovative solutions and unparalleled supports to meet and exceed our customers' expectations.
